Re: System Update to Waiting Room Solutions

The WRS Development Team completed a software update to the Waiting Room Solutions System on February 26, 2010. The updated version of the system includes the following enhancements and added functionality. These have been designed to improve overall system functionality, security and usability. This update includes the following:

Patient Management: Associate Patient with Principal Provider

Under the **Patient Management>Providers** tab a new section has been added to the bottom of the page called **Practice Providers**. On this page, the practice can designate any specific practice providers that the patient would like to have listed. The designation of **Principal Provider** is selected by using the radio button.

Providers	Directives	Account Information	Appointment Search	Referrals	Authorizations	Comments	P
Personal Information	Insurance	Contact Information	Medical History	Medications	Pharmacies	Social H	

Search for a new provider

First Name

State

Practice Providers for Template Vascular Surgery

Selected	Provider's Name	Primary	
<input checked="" type="checkbox"/>	NP AnyLocation	<input checked="" type="radio"/>	Details
<input checked="" type="checkbox"/>	WRS Doctor	<input type="radio"/>	Details
<input checked="" type="checkbox"/>	np goshen	<input type="radio"/>	Details

EMR All Notes Filter

Under the EMR All Notes Page, the system now provides the ability to filter patient encounter notes based on encounter characteristics. Filter criteria includes: date of service, encounter provider and associated diagnosis.

EMR NOTES [Create a New Note?](#) Current Practice: [View All Notes](#)

Search Note

Date Range: 01/21/2009 -- 1/31/2010 Signed by: Any

Search

EMR Note (Current Practice: 1 / Other Practices: 0)

Date	Type of note	Signature	Assessment	Drop
Dec 1, 2009	Visit Note	WRS Admin		

Password Encryption

All practice user passwords are now encrypted. Upon logging into the practice, all existing users will be presented with message box that notifies the user that their password has expired. Users will reset their password and it will be saved with AES encryption. Please note that this change will affect practice user (employee) passwords only. Patient passwords will not be affected.

Reset Password

Your password has expired. Please reset.

Current Password*:

New Password*:
Password case sensitive, 8 characters or longer, alphabetic numeric characters,

Confirm New Password*:

Submit

Under **Resource Management > Resource General**, the default password field will be set to blank. The message "Leave password blank if you do not wish to change" will now appear underneath the password field.

Miscellaneous Enhancements & Adjustments

Several enhancements and adjustments have been made to overall system functionality. These include, but are not limited to, the following:

- New EMR Notes now carry both icd9-associated assessment and free-text assessment from previous notes
- Patient image upload has been increased to a maximum size of 400x300 pixels
- Timestamp and modified by user info now appears on incoming and outgoing referral detail page
- EMR All Notes upload now includes jpeg formats
